ElevatingHOME and its subsidiary, Visiting Nurse Associations of America (VNAA), are member-led organizations who support, promote, and advocate for the critical role of mission-driven home-based care providers. Our goal is to align, unify, and strengthen the home-based care industry. We support our members through an array of services and support that focus on five key areas: advocacy, education, thought leadership, valuable cost savings, and collaborative networking opportunities.

The ElevatingHOME and VNAA Corporate Partnership Program offers opportunities to engage with member agencies as they navigate the quickly evolving health care system, the ability to demonstrate solutions for home health organizations seeking support in new care delivery and payment models, and access to ElevatingHOME and VNAA’s robust network of home-based care providers.
